## About me

I am a passionate **Full Stack Developer** and **UX/UI Designer** with a solid understanding of both Front End and Back End. My focus is on creating functional and appealing web applications, utilizing technologies such as Figma, HTML, CSS, JavaScript, Node.js, React.js and databases like PostgreSQL. My ability to tackle projects from conception to implementation allows me to deliver innovative and efficient solutions.

## Projects

| | |
|---|---|
| may 2023 - current | John Lemon - Refresh your style (work in progess) Online clothing commerce application, using Figma for high-fidelity prototyping. Some of its features include: shopping cart, favorites, filters, dropdown menu. It complies with responsive design. Project development: Figma. https://www.figma.com/proto/EtPAR16rcTrElndqSZpMtr/Untitled?node-id=1-3532&t=M93HCAQNH2mGXasw-1&scaling=min-zoom&page-id=0%3A1 |
| feb. 2024 | Raices - Your guide to citizenship The main objective of this application is to enhance the user experience in the pursuit of their Italian citizenship, being able to utilize all the information provided in Raices. https://www.figma.com/proto/GriSaiR9cwpwej9tOYvYqN/Untitled?node-id=1-615&t=IumhUwFOvDFFVr2m-1&scaling=min-zoom&page-id=0%3A1 |
| ago. 2023 | Rick & Morty | SPA Application developed as a practical foundation for the integrative project during the course of the degree. Front-End: HTML, CSS, JavaScript, React & Redux. Back-End: Node, Express. https://github.com/LCCaruso/Integrdor https://rickandmorty-theta-umber.vercel.app/ |
